Karawang, Weast Java, Indonesia

As a fresh graduate from the Software Engineering department of SMK NEGERI 1 BANYUSARI with one year of experience as a front-end web developer, I possess a strong understanding and high interest in the field of front-end web development. I have mastered various skills and am proficient in the React.js framework and Next.js framework for managing user interfaces and optimizing user experiences. Additionally, I have experience in data fetching with REST APIs and am well-versed in Scrum methodologies and Clean Architecture principles.
